

Prices for Behaviour Services

Current as of January 2017

Important Note: While I do offer prices for a single consult and single follow up, for most behaviour issues this is not enough time together to make a marked difference in significant behaviour problems. I will work with whatever your budget and commitment is, however what we can accomplish and what I will teach you will depend on how many sessions we do together. Generally a consult plus single session will result in a solid management plan and some basic starter skills plus practice.

Consult, Assessment and Information Session: \$120.00

The Consult Session is approximately 2 hours long and takes place at your home. What you will receive in the consult is a thorough understanding of your dog's problems, strategies to ensure the problem doesn't get worse, and starter skills to teach alternative acceptable behaviours. You will also receive relevant handouts, an individualized Goal Worksheet and additional resources specific to your dogs' issues, as well as a clicker.

Follow Up Sessions

Follow up sessions are approximately one hour long and take place in whatever location agreed upon by the consultant and client. They will include a customized homework sheet for up to 4 skills, as well as emailed additional resources.

Single Follow Up Session = \$80.00

includes one month of follow up emails/phone support
